Comprehensible, exhilarating and exuberant-

Looking at art with working artist, Mark Venaglia. Explore the joyous and sensual consistencies in both French Impressionism viewing and French wine tasting.

Renew your spirits - Absorbing the artistic offerings of creative people from previous centuries inspires answers for a better 21st century.

Mr. Norton Simon stated that while a Museum should be a place in which major art is constantly on view; it should also be used for teaching, seeing, and for formal and informal education. "Because for me," he said, "the respect for what art is all about comes out of looking more than reading, more than formal instruction."

A green artist since 1983, Mark offers the first Tour & Tasting in collaboration with Whole Foods Market Arroyo Parkway.
